

Patricia Heights Dental Centre was established in 1990 by Dr. Donald Chin and his wife Dr. Grace Lee. We welcomed Dr. Dave Yuen to our team in 2004. We are a family oriented, preventive practice with highly trained friendly professional staff.

You will be treated as the unique individual that you are and you can count on us to listen to all of your concerns. All of us at Patricia Heights Dental Centre have worked very hard to create an environment and a process that fosters open, honest and trusting interactions and we are confident that this will be evident to you on each visit.

Our dental hygiene staff are all trained, experienced and caring professionals. They are also responsible for the treatment and prevention of periodontal diseases. Your comfort and well-being is very important to them. Our dental assistants are indispensable members of our dental team who help make your visit a pleasant and comfortable experience. We value continuing education and it is very important to all of our staff.

COSMETIC DENTISTRY

Dr. Chin has attended numerous courses in cosmetic dentistry which enables us to create exciting new, beautiful smiles, using techniques such as veneers, bonding, crowns, implant restorations, laser and whitening. You can take years off your appearance by simply changing your smile. Book a smile analysis today to see what could be in store for you.

OUR GENERAL DENTISTRY SERVICES INCLUDE

- Hygiene Services
- Family Dentistry
- Crowns and Bridges
- Root Canal Therapy
- Bleaching
- Sports Guards
- Night Guards
- Restorative and Cosmetic Dentistry
- CEREC Restorations (*a computer system which can restore teeth by creating accurate and natural looking restorations right here in our office*)
- Soft Tissue Laser Treatment
- Implant Restorations

We also provide Televisions on the ceiling.

DENTAL IMPLANTS

Do you have questions about replacing missing teeth? The simple answer is dental implants. Implants will give you the look, feel and function of your natural teeth. Implants will enhance your self-confidence; there's no need to worry about smiling or speaking in public because of missing teeth. We firmly believe that dental implants provide effective replacements for missing teeth. Gaps caused by missing teeth can lead to further dental problems including tooth decay, gum disease, bone damage and TMJ disorder. Our friendly staff is knowledgeable and we welcome any questions you might have regarding the placement of dental implants.

STERILIZATION

Our patients safety, as well as our own, is of the utmost importance to us. As part of our very strict sterilization policy, all instruments are steam sterilized and when sterilization is not possible, disposable products are used. We use surface disinfectants and plastic barriers in every operatory, to ensure a protected environment. All sterilizers are tested and monitored continually throughout the day.

REFERRALS

Thank you for sending your family, friends, neighbours and even business colleagues to our office. These referrals mean a great deal to us. They tell us we are doing a great job for you and your family and that you trust us to do the same for others in your circle of friends. We are committed to continuing education and to leading edge technology, procedures and materials. Thank you! We really appreciate your kind referrals.

RECIPE FOR HEALTHY TEETH

There is a recipe to help you keep your gums healthy and your teeth free of decay: daily brushing and flossing; getting regular checkups and eating a balanced diet. Make a habit of having your teeth and gums cleaned and checked regularly, get into a routine of brushing and flossing and avoid snacking on sugary foods. Cheddar cheese, drinking water and using fluoridated toothpaste will all help to fight decay.

We accept **NEW** patients and appreciate patient referrals!

OFFICE HOURS:

Monday - Tuesday 9:00 am - 4:30 pm
Wednesday - Thursday 10:00 am - 8:00 pm
Friday 9:00 am - 2:30 pm

Saturday appointments are available.

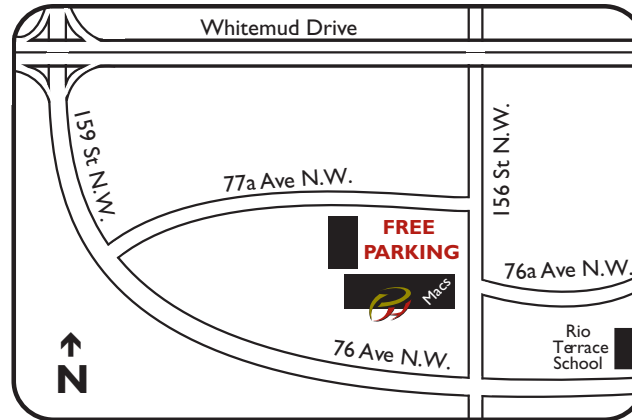

OUR INSURANCE POLICIES

We will accept assignment of benefits, if the plan has been checked on prior to your appointment and if the plan allows assignment of benefits. We do not take assignment of benefits on a second insurance policy.

We accept cash, Debit, Visa, M/C, and Amex.

TESTIMONIALS

"Excellent work - finished product very natural looking", "my teeth are beautiful, everyone compliments me on my smile", "all the staff went out of their way to ensure my visits were as comfortable as possible", "this was the best thing I ever did for myself", "it was a life-changing experience for me", "very pleasant dentist and assistants were definitely a plus!"
